CAREER OBJECTIVE

Passionate Software Engineer driven to take on complex challenges, seeking roles for continuous learning and innovation, eager to contribute to cutting-edge projects and leverage expertise to drive impactful solutions. Committed to fostering collaboration and staying ahead in the ever-evolving tech landscape. Dedicated to enhancing skills and embracing new technologies to solve real-world problems effectively.

EDUCATION

Bachelor of Computer Science & Engineering,   2017 – 2023
National University [Dhaka City College] ⌕
CGPA 3.22 out of 4.00

Higher Secondary Certificate (Science),   2015 – 2017
Govt Laboratory High School ⌕
 - **GPA 4.43 out of 5.00**

Secondary School Certificate (Science),   2015
Govt. Science College Attached High School ⌕
 - **GPA 5.00 out of 5.00**

SKILLS

Proficient : JavaScript, PHP, React, Next , TypeScript, Node, Express, MySql, Github

Familiar: Linux, Docker, Postman

Speaking Skill: English (Conversation), Bangla (Native).

Leader Ship Skill : Organizer of DCC Digital Week 2021

Learning: AWS Cloud, Nginx, Laravel

Other Skills: Problem Solving - (**Solved 70+ problem in leetocode and HackerRank**)
https://leetcode.com/SultanOmar0013/

LEADERSHIP SKILL

Organizer, *DCC Digital Week 2021*

DCC Digital Week 2021 is an event that is held at our university. Here, several competitions are held. Like programming contests, graphics design contests, web design contests, etc. I am one of the members of this event's organizing team.

PROFESSIONAL EXPERIENCE

JR. Software Engineer, *ERP.com.bd* ⌕   Dhaka, Bangladesh
Responsibilities: Developing, Maintaining, Managing in Enterprise Resource Planning(ERP) software and University Management System. Working in Micro Service and Monolith both software architecture.

- Resolves critical software issues 30% to ensure smooth functionality and maintain overall system stability.
- Enhances application performance 20% by reducing load times and improving responsiveness.
- Refines system architecture and code efficiency to optimize 15% workflow and operational processes, contributing.

Started At : 01/09/2023

PROJECTS

1) Travel-Management, *Full stack Travel Mangement website with Reactjs,PHP, MySQL,etc. GithubLink* ⧉
- Ensured data security and accuracy through proper validation and secure database interactions.
- Integrated **MySQL** to store, update, and manage travel data, including travel details, payment, and user information.
- Designed a **Responsive UI** that adapts to various screen sizes, enhancing the user experience across devices.

Github ⧉ **LiveLink** ⧉

2) Inventory Management System, *Full stack Inventory Management website with React,PHP, MySQL etc.*
- Developed a **full-stack Inventory Management System** using **React** for the frontend and **PHP** for the backend, facilitating efficient tracking and management of inventory items.
- Implemented **Signup and Login Authentication**, including **user verification** processes, ensuring secure access to the system.
- Designed a **Responsive UI** that adapts to various screen sizes, enhancing the user experience across devices.

GitHub ⧉ **LiveLink** ⧉

3) Ecommerce Full (Frontend and-Backend), *Full stack E-Commerce website with React, PHP, MySQL etc.*
- Developed a fully functional E-commerce platform with a user-friendly interface using **React** for the frontend and **PHP** for the backend.
- Designed a **responsive UI** that adapts to different screen sizes and devices for an optimal shopping experience.
- Utilized **MySQL** for managing product inventories, user data, and order histories.

GitHub ⧉

COURSES & CERTIFICATES

AWS Cloud Technical Essentials, *Amazon Web Services (AWS)* ⧉

Introduction to Git and GitHub, *Google* ⧉
